Inborn Errors of Immunity Committee (IEI)

Primary Immunodeficiency
Inborn Errors of Immunity:
The Expert Committee on Primary Immunodeficiency
To advance knowledge and expertise on primary immunodeficiencies worldwide

We:

- Provide an up-to-date classification of all primary immunodeficiency diseases (PID(s))
- Assist with the identification, diagnosis and management of patients with these uncommon conditions
- Support diagnostic and therapeutic guidelines developed by national societies and others, to assist healthcare providers
- Promote awareness, diagnosis and treatment of PID(s) in all regions of the world
- Produce ad hoc reports on any aspect of PID(s) and to assist in the welfare of patients with these conditions

Challenges:
• Funding: Successful partial funding for the online database. Look for more funding.
• Post a searchable list online at the IUIS website.
• Develop a cellphone app for PID.
• Extend our publications to other types (editorials).

Opportunities 2018:
Move to digital content to update the list of PID more frequently.

Implement strategies to interact with other IUIS committees to seek for synergistic opportunities.
